

Amendments to the Specification

Please delete the following header and paragraphs that begin on line 1 of page 3:

[Description of the Drawings]

FIG. 1 is a front view of an appearance of a refrigerator according to a prior art.

FIG. 2 is a side sectional view of a communication pad mounting structure according to a prior art.

FIG. 3 is a transverse sectional view of a preferred embodiment of a communication pad mounting structure according to the present invention.

FIG. 4 is a schematic perspective view of an example of a holder employed in the present invention.

FIGS. 5 and 6 are views showing a tilting process of the embodiment shown in FIG. 3.

Please delete the following headers that appear at lines 11 and 12 of page 3:

[Disclosure]

[Technical Problem]

Please delete the header, [Technical Solution], appearing at line 26 of page 3 and replace it with the header: SUMMARY OF THE INVENTION

Please delete the header, [Advantageous Effects], appearing on page 4.

After the first paragraph on page 4, insert the following:

DESCRIPTION OF THE DRAWINGS

FIG. 1 is a front view of an appearance of a refrigerator according to a prior art.

FIG. 2 is a side sectional view of a communication pad mounting structure according to a prior art.

FIG. 3 is a transverse sectional view of a preferred embodiment of a communication pad mounting structure according to the present invention.
